In the case of candidates with special needs that make the presentation in slide format impossible, their presentation will have the same amount of time without slides. UFSCar's PPGFT is not responsible for technical failures that may occur during the discussion.

8.4. In the Discussion of the Research Project, the criteria described in Appendix G will be evaluated. Each item will have a maximum score of 1.0 point, and the Discussion and Analysis of the Research Project step will have a score from 0 to 10.0.

8.5. Candidates who obtain **a score equal to or more than 7.0** will be approved in the Discussion and Analysis of the Research Project.

8.6. The result of the 1st Stage will be published on UFSCar's PPGFT website (www.ppgft.ufscar.br) according to the Schedule (Appendix E).

8.7. It will be possible to appeal the result of the 1st Stage, which must be presented within the period indicated in the Schedule (Appendix E). 8.8. For candidates who declare special needs, resources will be made available by the PPGFT (in conjunction with the UFSCar institution) in accordance with the needs mentioned by the candidate in the application form.

2nd Stage CURRICULUM VITAE ANALYSIS (classifying)

8.9. The *Curriculum Vitae* will be scored according to the items presented in **Appendix F (attention to the description of the documents accepted to prove the items)**. Each candidate will be assigned a grade in four groups: Group A – Academic and Scientific Background; Group B – Professional and Teaching Experience; Group C – Continuing Education and Group D – Scientific Production in the last 5 years, according to the supporting documents sent.

Then, each candidate's grade will be weighted in each group, concerning candidates who are competing for the same advisor, as follows: candidates who obtain the highest grade in Group A will receive a score of 2.0; in Group B, they will receive a score of 2.0; in Group C, they will receive a score of 1.0 and in Group D, they will receive a score of 5.0. Then, the weighting (rule of three) between the scores of the other candidates in each group will be carried out. Thus, the final grade will be obtained by the sum of the weighted scores of each group.

8.10. It will be possible to appeal the result of the 2nd Stage, which must be presented in the period indicated in the Schedule (Appendix E). The appeal request must be sent as **a document in PDF format** to the PPGFT e-mail (ppgft@ufscar.br). The e-mail must be identified as follows: **Appeal 2nd Stage Master's 2023 NAME OF CANDIDATE or Appeal 2nd Stage Doctorate 2023 NAME OF CANDIDATE**, for Master's or Doctorate candidates, respectively. 9.1. Candidates who have obtained **the highest grade in the arithmetic sum** of the stages will be approved and invited for enrollment. Candidates opting for the reservation of places will be called in descending order of grade and respecting the maximum number of places per PPGFT line of research. If the reserved places are not filled, they will be allocated to candidates approved in the ample competition modality. The disclosure of the result will take place according to the Schedule (Appendix E).

9.2. The following criteria will be used in case of a tie in this order: first, the highest score in the curriculum vitae according to the criteria in this public notice, then the highest score in the Research Project, and finally the oldest candidate.

APPENDIX H

DESCRIPTION OF THE PEOPLE WHO WILL BE ENTITLED TO RESERVATION OF PLACES

1. Black (black and brown)

Candidates who self-declare as such, in a self-declaration document filled in at the time of enrollment in the selection process, are considered to be black, according to the requirements used by the Brazilian Institute of Geography and Statistics (IBGE).

2. Indigenous people

The indigenous population, considered by self-declared candidates, must present a declaration of their ethnic belonging, signed by recognized leaders of their respective community, and a declaration from the National Indian Foundation (FUNAI), attesting that the candidate resides in an indigenous community. Specific policy for this group:

- Assessment and correction considering Portuguese as a second language, not affecting the assessment of the expected content.
- Exemption from having to take a proficiency exam in a foreign language or proof of proficiency in a language other than Portuguese.

3. Persons with disabilities

Persons with disabilities are defined as those who have long-term physical, mental, or sensory impairments which in interaction with various barriers may hinder their full and effective participation in school and society (BRASIL, 2008). In more recent legislation (Law No. 12,764; BRASIL, 2012), it considers Autism Spectrum Disorder (ASD) as a disability in its article 1, §2. At the time of registration, the candidate must inform (in a form with the various specificities) the type of disability and the necessary measures to carry out the tests.

Candidates classified/approved in the selection process must prove their condition by a medical report and/or specific examination.

Audio description will be offered, if necessary, for candidates who are blind and have low vision, translation and interpretation in sign language for deaf candidates and other adaptations that may be necessary.

Assessments and corrections should be consistent with the needs of each subgroup, namely: assessment considering Portuguese as a second language for deaf candidates; more time to carry out assessments, among other resources for candidates, according to their special needs.
